

# CREATE FASHION

## earn part of a badge

**Nuwaka is a one stop fashion world where you get to create your own look and then model it on our runway.**

We provide you with an opportunity to have fun, be creative, and walk away with something you can actually use – an article of clothing printed with your very own unique design. It's simple, and best of all no experience is required!

Just pick out an article of clothing, create a unique graphic with our easy to use program, print your design on the clothing you picked out, and then embellish it with rhinestones, fashion film, or whatever else you can think of. We even sew on a custom tag on your finished piece so you can let everyone know that you designed it yourself. And at the end of it all, you can have your very own fashion show on our runway to show off your new look!

We know you're an individual, now why not show everyone else? And when you design your own fashion you can also earn badges. Just take a look at some of the activities we offer for the different girl scout levels.
